QUESTION 5

The visitor accommodation lodge should be designed to fit in with the character of Easdale Island. This does not necessarily mean it has to look exactly like an Easdale Island cottage.

QUESTION 7

The primary materials used in the visitor accommodation lodge should be traditional: white render, stone, slate and timber frame windows and doors. A modern building however should not exclusively limited to traditional materials and in the same way the community hall utilises lead in its design, alternative secondary materials like this can and should be considered in the design of the lodge.
